

The National Graphene Institute at the University of Manchester

The National Graphene Institute (NGI) at The University of Manchester will be the world's leading centre of graphene research and commercialisation. The NGI will uniquely offer a collaborative environment where industry and science can work side by side on developing new and exciting graphene applications. Set to open in early 2015, the £61m NGI is funded by the Engineering and Physical Sciences Research Council (EPSRC) and the European Regional Development Fund (ERDF).

- £61m expenditure
 - Building and Infrastructure - £50m
 - Equipment - £11m
- 7,825m² world class facility over 5 floors
- 2 x Class 100/1000 Clean rooms (c1,500m²)
- Labs – c1,500m²
- Partner Space - c900m² (Clean Room and Labs)
- Employing ~125 people (110 research)
- Building to be completed and occupied - 1st Qtr 2015
